## SIDE EFFECTS

It is

### IMPORTANT

-  **medical team know.**  
Cycle
-  **injection before use. Work in a clockwise fashion around**  
Timing
-  **Refrigerate**  
Frequency
-  **1-3 months ON, 1 Month OFF**  
Dose / route
-  **PM before bed or AM fasted**  
Storage

## INJECTION SITE

CJC-1295 + Ipamorelin work together to boost natural growth hormone (GH) production. CJC-1295 steadily increases GH levels over time, while Ipamorelin triggers short bursts of release without disrupting other hormones.
