

PEPTIDE

BPC - 157

Ocean
PLASTIC SURGERY

DESCRIPTION

BPC -157 is a peptide derived from a naturally occurring peptide that has gained attention for its therapeutic effects in promoting healing and tissue repair by stimulating the formation of new blood vessels, promoting cell proliferation, and reducing inflammation.

BPC - 157

20mg

99% PURITY

BENEFITS

Speeds up recovery from injuries, supports joint and tendon health, and helps protect against further damage.

SIDE EFFECTS

It is important that you follow the dose and administration instructions as listed. Mild redness or tenderness at the injection site. Rarely, nausea, dizziness, or mild digestive discomfort may occur. If any of these symptoms become severe, contact us and let the medical team know.

IMPORTANT

1-3 months ON, 1 month OFF

Cycle

Take daily

Timing

AM or PM, Be consistent

Frequency

INJECT 10 UNITS, SQ

Dose / route

REFRIGERATE

Storage

INJECTION SITE

Use an alcohol swab on the top of the vial and at the site of injection before use. Work in a clockwise fashion around the belly button to ensure the prior injection sites have healed, avoiding tender areas. Other subcutaneous area shown to the left.
