

NASAL SPRAY

NASAL SPRAY PEPTIDE

Ocean
PLASTIC SURGERY

DESCRIPTION

PEPTIDENASALS PRAYIMMUNE This immune-supporting nasal spray is designed to help strengthen the body's natural defense system. By supporting immune signaling and response at the nasal pathway, it may help promote immune resilience and support the body during periods of increased exposure, stress, or seasonal challenges.

IMMUNE

Nasal Spray Peptide

99% PURITY

BENEFITS

Supports immune defense, enhances immune resilience, promotes faster response to immune challenges, and helps maintain overall immune balance.

SIDE EFFECTS

It is

IMPORTANT

-  **the dose and administration**
Cycle
-  **let the medical team know.**
Timing
-  **Refrigerate**
Frequency
-  **3 months on, 1**
Dose / route
-  **month off**
Storage

INJECTION SITE

Use an alcohol swab on the top of the vial and at the site of injection before use. Work in a clockwise fashion around the belly button to ensure the prior injection sites have healed, avoiding tender areas. Other subcutaneous area shown to the left.
