

# PEPTIDE

RETATRUTIDE

Ocean  
PLASTIC SURGERY

## DESCRIPTION

Retatrutide is a multi-receptor agonist peptide designed for advanced weight management support. Your clinician will personalize dosing and monitoring based on your goals and response.

## BENEFITS

Supports appetite control and body composition goals as part of a supervised peptide program.

### RETATRUTIDE

Per prescription

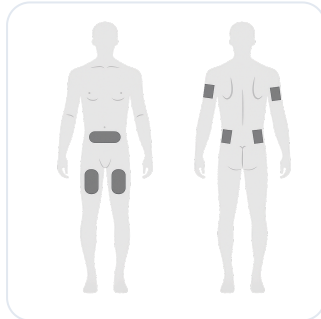

**99% PURITY**

## SIDE EFFECTS

It is important that you follow the dose and administration instructions as listed. Mild redness or tenderness at the injection site may occur. If any symptoms become severe, contact us and let the medical team know.

### IMPORTANT

-  **Follow your prescribed cycle**  
Cycle
-  **AM or PM, be consistent**  
Timing
-  **As directed on your plan**  
Frequency
-  **See dose instructions on your plan**  
Dose / route
-  **Refrigerate**  
Storage

## INJECTION SITE

Use an alcohol swab on the top of the vial and at the site of injection before use. Work in a clockwise fashion around the belly button to ensure the prior injection sites have healed, avoiding tender areas. Other subcutaneous area shown to the left.
